• **Bulky Item Transfer Station in Urban Honolulu** – A resident suggested the City construct a transfer station in Urban Honolulu to dump bulky items; instead of dumping it in front of residents. The Councilmember replied that it is difficult to find a suitable location. However, the main problem is that nearby property owners and neighbors would be opposed, citing complaints of congested traffic; also, the City Department of Environmental Services (ENV) truck drivers get paid time and a half.

• **Hawaii Film Industry** – The year 2010 will be a great year for the Hawaii Film Industry where it is approximated that $220 million will be spent here thereby generating $12 million in revenues for the City.

Constantinau highlighted the following concerns raised at the previous meeting:

• **Bulky Items Pickup** – That are scheduled for the 3rd Monday of the month have not been picked up until Wednesday or Friday following the 3rd Monday. The ENV takes between three to four days to complete the sector they start servicing on the 3rd Monday of the month; and usually completes the sector by Thursday following the 3rd Monday.

• **Lighting at the Intersection of Date Street and Mooheau Avenue** – A concern of why the City Department of Transportation Services (DTS) takes so long to install the lighting at the intersection of Date Street and Mooheau Avenue. The demand for signal installation exceeds the available funding and therefore DTS has a priority list of traffic signals to be installed/modified annually. The priority listing is reviewed and updated annually. The left turn signal from Mooheau Avenue into Kapahulu Avenue is currently out to bid and DTS estimates construction to start late this year.

• **Incidents Involving Moped Riders** – Numerous incidents were cited where moped riders are hit by speeding vehicles at the intersection of St. Louis Drive and Bertram Street; making it dangerous, thereby needing a better design on its street markers. DTS will conduct an investigation and will provide a report of their study by May 2010.

• **Chaminade Terrace Lighting Project** – It was inquired about why there was no notification prior to the start of the Chaminade Terrace Lighting Project being funded by hard-earned taxpayers’ dollars. The project proceeded prior to a new open City policy where the public is notified on these projects for their input prior to proceeding forward on it.

• **The State’s Budget** – In light of House Speaker Say’s comments concerning the State’s budget woes due to the economic downturn and the affects of the City’s finances; per the City’s Department of Budget and Fiscal Services (BFS), the City’s finances like the State of Hawaii has been affected by the economic downturn. Real Property Taxes, the City’s primary source of revenue is expected to drop significantly with the reduced assessment values. This trend in property reductions is expected to continue. Initial forecasts for the Fiscal Year 2011 Operating Budget indicates a shortfall of $140 million. Additionally, the Governor and some State Legislators have proposed taking the Counties’ share of the Transient Accommodations Tax (Hotel Room Tax). This will add an additional $40 million to the City’s project budget shortfall.
- **Diamond Head Road Entrance** – A concern noticed roller/paving equipment and other trucks at the Diamond Head Road entrance and inquired who the contractors were and what type of job they were doing. After checking with several departments, an inspector from the City Department of Planning and Permitting (DPP) reported that these trucks were for a private job and that the trucks were only staging at the Diamond Head end of the park.

Questions, comments, and concerns followed:

- **Transfer of Sidewalk Ownership** – A concern rose at the Board’s November 2009 meeting regarding why there has not been a transfer of ownership on sidewalks from private residences to the City; and the concern if anyone gets hurt/injured due to the dilapidated conditions on the sidewalks, that the homeowner could be held liable. Constantinau indicated this issue has been raised previously and she will follow up.

**COMMUNITY CONCERNS:**

Clarification Concerning Vegetation Encroachment on Beach Shorelines: Lucinda Pyles, former member of the Waialae-Kahala Neighborhood Board, stated that at last month’s meeting she spoke about vegetation encroachment on shorelines thereby taking away beach accessibility. Pyles stated that there was a recent ruling by the Hawaii State Supreme Court ruling regarding jurisdiction of shoreline where it is defined as when the shorelines waves reach their highest watermark (going inside the beach shoreline) as the boundary line for public access to the shoreline for recreational use. The planting of seawater-tolerant Naupaka has blocked public access to the shorelines. The problem is that the State Department of Land and Natural Resources (DLNR) do not have the enforcement mechanism to remove the Naupaka. However, homeowners can voluntarily remove the Naupaka but refuse to remove the Naupaka. After much discussion ensued, Board Members decided not address this issue.

**APPROVAL OF MINUTES:**

August 13, 2009 Regular Meeting Minutes – Citing deficiencies in these draft minutes, Chair Narita asked this be deferred until Neighborhood Commission Office Supervisor Marie Richardson reviews and correct these deficiencies. Without objections, approval was deferred.

January 14, 2010 Regular Meeting Minutes: Neighborhood Assistant Siddiqui informed Chair Narita that BWS sent corrections. Chair Narita reviewed it stating that Board Secretary Cain should have received the corrections from BWS via Neighborhood Commission Office Supervisor Richardson.

**Without objections, the January 14, 2010 Regular Meeting Minutes was APPROVED UNANIMOUSLY as circulated, 13-0-0 (Ayes: Allen, Berlin, Cain, Chang, Drown, Egged, Harden, Luckett, Miller, Nahoopii, Nahoopii, Narita, Persons, Waialeale).**

**BOARD BUSINESS:**

Honolulu Zoo Entrance Demolition/Renovation – No report.

Neighborhood Board Newsletter – Board Member Miller suggested that the most recent picture of Board members be placed in the upcoming Newsletter. Chair Narita pointed out that the newsletter has expired therefore he suggested that Miller frame a motion to have Board authorization to do another newsletter.

**Miller moved, Egged seconded, that the Diamond Head/Kapahulu/St. Louis Heights Neighborhood Board No. 5 do a newsletter to inform the community to what this Board does.**

Discussion followed:

- Miller pointed out there is a rule that placing a picture of Board members cannot be displayed a few months prior to the Board member(s) running for reelection to the Board.
- It was suggested that there be a picture of Former Mayor Frank Fasi in the newsletter so that residents can write memories of Former Mayor Fasi.
- Chair Narita asked why there has been no newsletter for the past two years. Miller replied that publishing the newsletter would cost the Board their entire publicity budget. With the Executive Secretary position vacant, the Board should proceed with the newsletter.
• Chair Narita stated that the Board should look at the framing, editing, content and distribution of sending the newsletter to the community including costs and the timeline to complete it.
• Without objections, action on this item was deferred so that more information can be presented to Board Members for input at their March 11, 2010 Meeting.
• Miller replied that this is her third time working on the Board Newsletter.

Kapiolani Park’s Illegal Camping Issue: As reported, the Honolulu City Council passed Bill 7 (2010) – Authorizing to remove Tents in City Parks and Bill 8 (2010) – Authorizing to remove Shopping Carts in City Parks.
