

**Kapi'olani Community College Transfer Report
From Academic Year 2013 - 2014**

Methodology

The National Student Clearinghouse (NSC) was used to search for subsequent enrollment of all students enrolled and home based at Kapi'olani Community College (KapCC) during the 2013-2014 academic year (fall, spring, or summer semesters.) A search was conducted for the first transfer

institution from the last semester in which the student was registered and home based at KapCC until 15 July 2015. Records for 8,556 students were submitted to the NSC, and 25 transfer institutions were identified which accepted at least four former KapCC students.

Limitations of Methodology

The National Student Clearinghouse StudentTracker system provides attendance data for more than 3,500 institutions accounting for more than 98% of the national college enrollment.

Of the 8,556 student records submitted to the NSC, 292 students had no response data available. An additional 4 records were blocked by the students, and 1 record was blocked by the school. The NSC reports transfers to all participating institutions, but the current brief only reports transfer institutions with at least four former KapCC students.

Findings

As shown in the first table, 25 transfer institutions accepted 1,419 of the 8,556 former KapCC students. The top five transfer institutions were other schools within the University of Hawai'i system.

These five schools accepted 1,131 or 78% of the KapCC transfers. The top two transfer schools from outside the UH system were Chaminade University of Honolulu (ranked 6th with 47 students or 3% of the transfers) and Hawai'i Pacific University (ranked 7th with 42 students or 3% of the transfers.) The top transfer school outside of Hawai'i was the online University of Phoenix, and the top transfer school with a physical campus located outside of the state of Hawai'i was the University of Nevada Las Vegas (ranked 12th with 15 students or 1% of the transfers.)

State	Number of Institutions	%
AZ	3	12.00
CA	4	16.00
HI	13	52.00
NV	2	8.00
OR	2	8.00
WV	1	4.00

The second table presents a breakdown of the 25 transfer institutions by state. Hawai'i, Arizona, and California were home to 80% of the transfer schools, and the remaining transfer institutions were located in three other states.

The majority of the transfer institutions were 4-year rather than 2-year schools (68% vs. 32%.) The majority also were public rather than private schools (64% vs. 36%.)
