

Prior Higher Education Enrollment of Fall 2013 Transfer Students to Kapi'olani Community College

Methodology

Names and birthdates of transfer students (student type = 'T') to Kapi'olani Community College (KapCC) were extracted from the Operational Data Store (ODS) data warehouse after the fall 2013 census freeze (30 September 2013.) These data were submitted to the National Student Clearinghouse (NSC) with a request for prior attendance information. Records for 1,036 transfer students were submitted to the NSC, and prior attendance records for 655 transfer students were returned.

Limitations of Methodology

The NSC StudentTracker system provides attendance data for more than 3,500 institutions accounting for more than 98% of the national college enrollment.

Findings

Time Since Transfer Students Were Enrolled in Higher Education		
Time Since Last Enrollment	Frequency	Percent
< 4 Months	144	21.98
4 to 6 Months	16	2.44
7 to 11 Months	89	13.59
1 to < 2 Years	113	17.25
2 to 5 Years	173	26.41
> 5, But < 10 Years	98	14.96
10 Years or More	22	3.36

The first table shows the most recent higher education enrollment before the students transferred to KapCC in fall 2013. Over a third (38%) of the 655 transfers to KapCC had been enrolled within 1 year of transfer. Over 18% of the transfers had been out of school for over five years.

Number of Schools	Frequency	Percent
1	419	63.97
2	146	22.29
3	60	9.16
4	21	3.21
5	5	0.76
6	3	0.46
7	1	0.15

The second table shows the number of higher education institutions KapCC transfer students attended before they transferred to KapCC. One student attended seven institutions before transferring to KapCC, but the majority of transfers only attended one institution prior to KapCC. Over 86% of the 655 transfers attended one or two institutions prior to KapCC.

The third table shows the number of students who transferred from all colleges with at least three transfers to KapCC. These colleges were the most recent school from which the students transferred to KapCC.

The third table shows that 37 institutions sent 392 transfer students to KapCC. These 37 institutions sent 60% of the total transfer students to KapCC. Transfers from any of the University of Hawai'i institutions required a change of home institution to be counted (rather than just attendance.) The fourth highest sending institution was KapCC. These students possibly transferred to KapCC from another institution after they attended KapCC previously. These other institutions would have been ones from which the NSC doesn't receive enrollment reports.

The top six transfer institutions were all schools within the University of Hawai'i system. These six schools sent 211 or 32% of the transfers to KapCC. The top three sending schools from outside the UH system were Hawai'i Pacific University (ranked 5th with 18 students or 3% of the transfers), Heald College (ranked 6th with 17 students or 3% of the transfers), and the online University of Phoenix (ranked 7th with 13 students or 2% of the transfers.) The top sending school physically located outside of the state of Hawai'i was the University of Nevada—Las Vegas (ranked 10th with 9 students or 1% of the transfers.)

The fourth table shows a reordering of the 37 sending institutions in the previous table by state rather than the number of students. Of the institutions that sent at least three transfers to KapCC, Hawai'i and California sent 318 students or 49% of the transfers.

State	Frequency	Percent
AZ	4	10.81
CA	9	24.32
CO	2	5.41
HI	12	32.43
MD	1	2.70
NV	2	5.41
OR	3	8.11
TX	1	2.70
WA	2	5.41
WI	1	2.70

The fifth table shows the number of sending institutions in each state. Of the 37 institutions that sent at least three transfers to KapCC, 12 of the institutions were located in Hawai'i (32%) and 9 were located in California (24%), and the remaining sending institutions were located in eight other states.

Additionally, 20 (54%) of the institutions that sent at least three transfers to KapCC were 4-year institutions, and the majority of the 37 sending institutions also were public rather than private schools (78% vs. 22%.)
