

**Kapi'olani Community College Transfer Report
From Academic Year 2011 - 2012**

Methodology

The National Student Clearinghouse (NSC) was used to search for subsequent enrollment of all students enrolled and home based at Kapi'olani Community College (KapCC) during the 2011-2012 academic year (fall, spring, or summer semesters.) A search was conducted for the first transfer

institution from the last semester in which the student was registered and home based at KapCC until 15 July 2013. Records for 8,886 students were submitted to the NSC, and 32 transfer institutions were identified which accepted at least three former KapCC students.

Limitations of Methodology

The National Student Clearinghouse StudentTracker system provides attendance data for more than 3,500 institutions accounting for more than 98% of the national college enrollment.

Of the 8,886 student records submitted to the NSC, 560 students had no response data available. An additional 14 records were blocked by the students. The NSC reports transfers to all participating institutions, but the current brief only reports transfer institutions with at least three former KapCC students.

Findings

As shown in the first table, 32 transfer institutions accepted 1,477 of the 8,886 former KapCC students. The top five transfer institutions

were other schools within the University of Hawai'i system. These five schools accepted 1,172 or 79% of the KapCC transfers. The top two transfer schools from outside the UH system were Hawai'i Pacific University (ranked 6th with 53 students or 4% of the transfers) and Heald College-Honolulu (ranked 7th with 38 students or 3% of the transfers.) The top transfer school outside of Hawai'i was the online University of Phoenix (ranked 8th with 30 students or 2% of the transfers), and the top transfer school physically located outside of the state of Hawai'i was Santa Barbara City College (ranked 15th with 8 students or slightly over one half of a percent of the transfers.)

Transfer Institutions by State		
State	Number of Institutions	%
AZ	3	9.4
CA	4	12.5
CO	1	3.1
HI	15	46.9
IA	1	3.1
NE	1	3.1
NV	2	6.3
NY	1	3.1
OR	3	9.4
UT	1	3.1

The second table presents a breakdown of the 32 transfer institutions by state. California and Hawai'i were home to over 59% of the transfer schools, and the remaining transfer institutions were located in eight other states.

The majority of the transfer institutions were 4-year rather than 2-year schools (69% vs. 31%.) The majority also were public rather than private schools (63% vs. 38%.)
