

**Kapi'olani Community College Transfer Report
From Academic Year 2012 - 2013**

Methodology

The National Student Clearinghouse (NSC) was used to search for subsequent enrollment of all students enrolled and home based at Kapi'olani Community College (KapCC) during the 2012-2013 academic year (fall, spring, or summer semesters.) A search was conducted for the first transfer

institution from the last semester in which the student was registered and home based at KapCC until 15 July 2014. Records for 8,806 students were submitted to the NSC, and 33 transfer institutions were identified which accepted at least four former KapCC students.

Limitations of Methodology

The National Student Clearinghouse StudentTracker system provides attendance data for more than 3,500 institutions accounting for more than 98% of the national college enrollment.

Of the 8,806 student records submitted to the NSC, 404 students had no response data available. An additional 11 records were blocked by the students. The NSC reports transfers to all participating institutions, but the current brief only reports transfer institutions with at least four former KapCC students.

Findings

As shown in the first table, 33 transfer institutions accepted 1,422 of the 8,806 former KapCC students. The top four transfer institutions were other schools within the University of Hawai'i system. These four schools accepted

transfers. The top two transfer schools from outside the UH system were Hawai'i Pacific University (ranked 5th with 51 students or 4% of the transfers) and the online University of Phoenix (ranked 7th with 34 students or 2% of the transfers.) The top transfer school outside of Hawai'i was the online University of Phoenix, and the top transfer school with a physical campus located outside of the state of Hawai'i was the University of Nevada Las Vegas (ranked 13th with 9 students or slightly over one half of a percent of the transfers.)

The second table presents a breakdown of the 33 transfer institutions by state. Hawai'i, California and Oregon were home to 70% of the transfer schools, and the remaining transfer institutions were located in six other states.

The majority of the transfer institutions were 4-year rather than 2-year schools (67% vs. 33%.) The majority also were public rather than private schools (67% vs. 33%.)
